

## CD3 Mouse Monoclonal Antibody

SKU: EAB-063

Recombinant mouse monoclonal antibody (Clone ID: OKT3), expressed in Chinese Hamster Ovary cells (CHO), is capable of strong binding to human CD3.

CD3 is a protein complex and T cell co-receptor that is involved in activating both the cytotoxic T cell and T helper cells. This antibody is a mouse recombinant monoclonal antibody that binds specifically to human CD3, and it can neutralize the bioactivity of human CD3. The antibody is directed against the CD3 antigen on human T cells.

species reactivity	human
recombinant	expressed in Chinese Hamster Ovary cells (CHO).
applications	ELISA, WB, IHC, Flow Cyt, neutralization
antibody form	affinity purified immunoglobulin
immunogen	human CD3
clone	OKT3
purity	>95% (SDS-PAGE)
form	0.015 M PBS, 0.05% NaN <sub>3</sub> , pH7.2
concentration	~ 2 mg/ml
isotype	mouse IgG1, k
Fc-engineered	n/a; wild type Fc

- Store at -20°C. Recombinant monoclonal antibodies are guaranteed stable for 12 months when properly stored.
